

## EXP-6: ARDUINO TO 16x2 LCD DISPLAY USING PROTEUS

### Code

```
#include <LiquidCrystal.h>

LiquidCrystal lcd(7, 8, 9, 10, 11, 12);

void setup()
{
    lcd.begin(16, 2);
    lcd.print("Hello Arduino");
}

void loop()
{
    for (int i = 0; i < 13; i++)
    {
        lcd.scrollDisplayLeft();
        delay(700);
    }
}
```

**RESULT:**
